Koti sai – The life of Mine

On June 5th, I saw three of my favourite people at the same time. prici, Pradee and sai…

I thought I wouldn't lose Jaga, but we haven't spoken since we started new school… I reasoned that it shouldn't have happened to my three best friends…

I fought with Dina and Koti sai one day for no apparent reason. Sai called me through Pradeep's number because I hadn't spoken with him over the weekend. Prici was not present the following day. I was too embarrassed to look Dina and Koti sai. I hadn't even looked them in the eyes. Dina then called and told me to knot his tie. Surprisingly, he said bye before the living class. I felt a little better after that.😅

I've always thought that Sai and Prici have similar attitudes and personalities.

On Valentine's Day, Sai slapped me. His fingerprint was on my cheeks. He simply slapped me, but it was too hard, and it gave me a headache. Jeba was chastising him.

When Pradee, Sai, and Kiran arrived home, Sai had deleted all of his photos from my laptop and i was too upset on him.

Sai persuaded Jeeva to my home. He was only two years old. He was mingling and playing with me nicely. 🥰I was very happy.

2013-2014

On my phone, there was a game called "Fruit Link." I used to play it whenever I was upset with Sai. I literally finished every stage of that game.🤣

I felt that the friendship of these two guys was more than enough for me.

My ring meant a lot to me. I never gave my ring to anyone to wear, and I never let anyone make me wear a ring. I mentioned this to Sai, and he took a ring from me and refused to return it until school was finished.😢

I spoke with him first, followed by Pushpa Akka. She got match. Her engagement was on February 1st, and her wedding was scheduled for March 3rd, the same day as our public exam. I felt bad for him because it was his first family gathering and he couldn't make it. Before this I was irritated with my friends because they were making fun of Vinoth. I felt a sense of relief after this conversation.

I used to hear "Prema Kavali" songs whenever I imagined speaking with Sai😂. It made up for his absence. Those were five of my little favourite songs😌.
